

West Sussex Libraries

Essential Toiletries Kits are available free of charge from West Sussex Libraries for a limited time.

As part of our Cost of Living response, West Sussex Libraries will be providing Essential Toiletries Kits to our customers. The Essential Toiletries Kits will contain shampoo, body wash, roll on deodorant and toothpaste, which will all be in a brown paper bag. Essential Toiletries Kits will be available for free in every one of our [36 libraries](#).

All you have to do is to visit your local library and find the display of the Essential Toiletries Kits. You can then help yourself to a kit, add a toothbrush (either an Adult or Child's), then tick a sheet for our data records to say which group best represents your household – families with children/people with disabilities/older people or other if the previous categories do not relate to your circumstance.

The kits will be in libraries while stocks last.

If you have any further questions please don't hesitate to email: countylibraries@westsussex.gov.uk
